## MAIL STOP PATENT APPLICATION

Commissioner for Patents P.O. Box 1450 Alexandria, Virginia 22313-1450

Sir:

Submitted herewith is a computer readable form and a substitute paper copy of the sequence listing of those sequences in the captioned patent application. The computer readable form of the sequence listing is the same as the substitute paper copy of the sequence listing.

The sequence information provided in the Specification has been corrected in view of

two sequencing errors and these corrections are reflected in the substitute paper and

computer readable forms of the sequence listing. These corrections are described in detail in

the Preliminary Amendment submitted herewith. Briefly, the newly submitted sequence

listing makes corrections at positions 385 and 386 of the nucleotide sequence (SEQ ID

NO:1) and at position 129 of the corresponding amino acid sequence (shown in SEQ ID

NO:1 and SEQ ID NO:2).

Accordingly, the corrected sequence listing in the Specification is the same as the

sequence information contained in the enclosed substitute computer readable and paper

forms of the sequence listing which have also been updated to Patent In Version 3.2.

In accordance with 37 C.F.R. § 1.821(g), it is herewith represented that no new matter

is included with this submission.

Respectfully submitted,

Gmy J. Klann Amy G. Klann
